

Vision 4324

Sony CCD Black and White Camera

The 4324 is a black and white that uses Sony high sensitive super HAD 1/3" interline transfer CCD image sensor. It employs a digital signal processor (DSP) chip-set for image control, and all integrated state circuitry, which provides extremely long life and high reliability. It offers excellent image quality with low lag and high burn resistance, and is not subject to distortions from magnetic fields. Highly resistant to shock and vibration and easy to install, it is a very good choice for your black and white cctv system.

TP 4324

KEY FEATURES

- 1/3" Sony B/W CCD
- 24vAC
- 380 TV Lines
- Low power consumption
- Supports video-drive & DC-drive auto iris lens
- Functions Supported
 - auto electronic shutter
 - auto gain control
 - auto white balance
 - backlight compensation
 - flickerless mode
 - manual white balance
