

## **Release Note for Firmware & Web**

**Title : Firmware & Web page Update**

**Firmware (kernel) Version : 2.2 (Build: Nov 18 2003)**

**Web page version : 2.2 (Build: Nov 18 2003)**

**Release Date : Nov 20 2003**

**Applied Models: All FlexWATCH™ Network Camera and Video server series**

### **Details of Update**

**Internet security features are improved to prevent any possible hacking by known hacking method.**

**It is strongly recommended to update firmware to improve web security, especially when the FlexWATCH™ servers are exposed to internet.**

### **NOTE!**

No other change was done to web page version except Build date change. Thus, you may use existing web page as it is and do firmware update to improve your internet security feature..
